

Campus Framework Update

Syracuse University unveiled the draft Campus Framework on June 20, 2016 and invited the campus community to provide feedback and input.

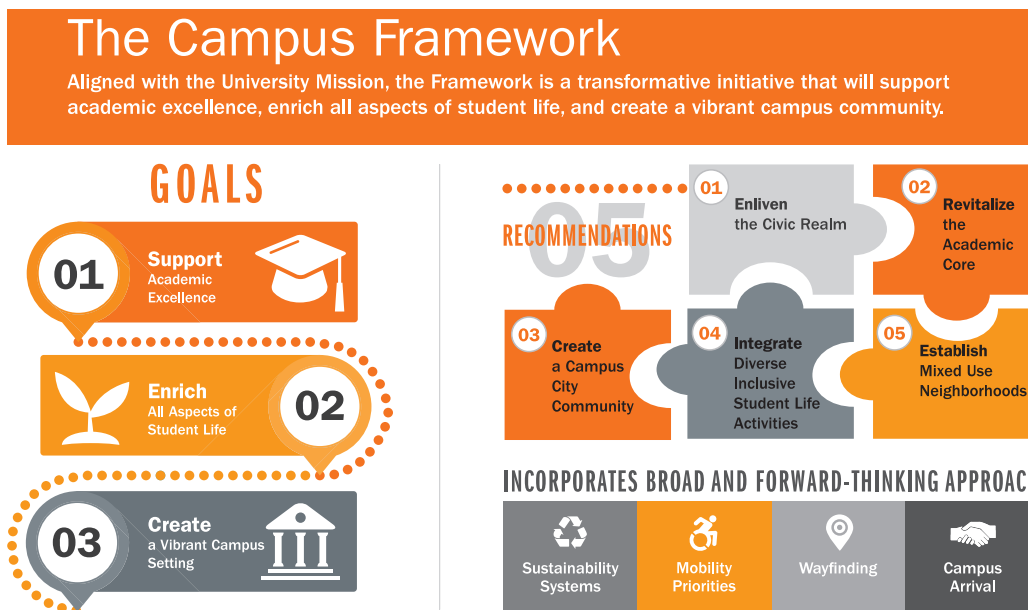

Based on two years of conversations and thousands of pieces of community feedback, Sasaki Associates and the Campus Framework Advisory Group identified three overarching goals that guided the development of the Campus Framework.

- **Support Academic Excellence:** Strengthen the global legacy of learning and investigation by creating 21st-century academic and research environments across the University.
 - **Near-term projects:** \$9 Million Classroom Enhancements and Technology Upgrades Project; National Veterans Resource Complex (NVRC)
- **Enrich All Aspects of Student Life:** Foster student success through a holistic residential experience, engaging student life centers, a comprehensive academic and administrative support network, and a diverse array of health and wellness offerings.
 - **Near-term projects:** \$4 Million in ADA-Accessibility campus upgrades; The Arch student life and recreation center; Dome improvements and roof replacement
- **Create a Vibrant Campus Setting:** Continue to enrich and unify the environment with high-quality placemaking, buildings, and landscapes distinguished by design excellence.
 - **Near-term projects:** University Place Promenade; Shaw Quad infrastructure improvements

The near-term projects were selected based on a number of factors, including the urgency of infrastructure improvements, access to possible government funding and support, campus community input, and the need to create a holistic student experience.

The Campus Framework is a 20-year roadmap that aligns the Academic Strategic Plan with the University's physical campus environment to further strengthen our standing as a great, thriving, international research university and create an exceptional student experience. Some areas where the two plans intersect include:

- providing an unparalleled student experience;
- fostering a culture of discovery and research;
- sustaining an inclusive and accessible campus; and
- ensuring distinguished veterans' programs/services
